# Individual Education Plans: The Basics

Transition and Safety Plans

Presenter - Patricia O'Connor

### **Background Information**

- 34 years experience in education, BA, B.Ed., M.Ed.
- In-class teaching in all four divisions: regular and special education classrooms, resource teacher/consultant roles as well as developing and teaching ASD specific university courses
- Last 18 years developed and provided innovative ASD services for various school boards throughout Ontario/Canada

## **Background Information**

 Currently her primary focus has been on consultation and coaching; training, program development and advocacy for young adults with Asperger Syndrome transitioning to the work world and post-secondary through her company Integrated Autism Consulting.

Patricia O'Connor www.integratedautismconsulting.com

#### Overview

- Education Advocacy
- What is an Individual Education Plan (IEP)?
- Why does a Student have an IEP?
- Necessity of the IEP
- The Process of Developing the IEP
- Parent Involvement
- Transition Planning
- Safety Plans

# Why is Education Advocacy Necessary?

- More students in each class every year requiring special education support
- Competition for limited resources
- Parent capacity to advocate varies significantly and is impacted by the family circumstances including family dynamics, employment status and income

# Know your Child's Disability

- Understand the defining characteristics and how they impact your child
- Share any information with the school that will enable them to understand your child better
- Providing a written overview of your child as they transition into new situations is always beneficial

#### Identification

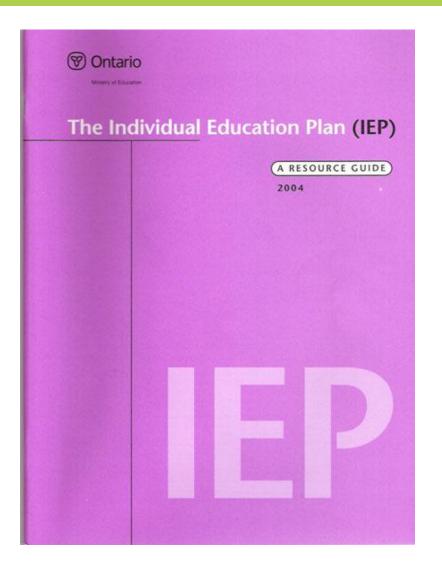

- Important that you have your child formally identified through the IPRC (Identification, Placement, Review Committee) process
- Identification usually occurs when parents request and provide the necessary information: Assessments, reports, etc.
- Placement will depend on what is available and what best suits the school/board situation

#### Individual Education Plans

- A written plan describing the special education program and services for a specific student, based on their strengths and needs
- Accommodations are noted to help the student achieve to the best of their ability
- Modifications, which are expectations that are different from the age appropriate level, must be included

#### Individual Education Plans

- A working document that identifies alternative expectations
- A record of skills to be assessed for reporting student achievement
- An accountability tool for the student, the student's parents, and everyone who has responsibilities for helping the student meet the goals

# The Key to the Kingdom!

REASON FOR DEVELOPING  Student identified as		rmally identified but requires special education program/services,
exceptional by IPRC	including mod	iffed/alternative learning expectations and/or accommodations

#### An IEP is not....

A description of everything that will be taught

A list of all teaching strategies

- A daily lesson plan
- A fixed document that remains the same from year to year

### Why does a Student have an IEP?

 Ministry regulations require that an IEP be developed for all identified students

 IEP's may be developed for a student who has not been formally identified but requires special programs and services

### IEP Development: The Necessity

- Template for the student and the teacher program
- Represents how your child's program will differ from the regular program.
- Principals are legally required to ensure that parents are consulted in the development of IEP's and consultation must occur on any significant changes, prior to implementation

### **IEP Development: The Process**

I. Information collection

2. Set the direction

3. Develop IEP

4. Implement IEP

5. Review and update

#### Information Collection

Review of all available information

 Consult with parents, the student, school staff and other professionals

Student observation

Assessment

#### **Set the Direction**

Establish a collaborative team

Begin work on the IEP

 Indicate student's strengths and needs identified by the IPRC

#### Individual **Education Plan** REASON FOR DEVELOPING THE IEP Student identified as ☐ Student not formally identified but requires special education program/services, exceptional by IPRC including modified/alternative learning expectations and/or accommodations STUDENT PROFILE Gender: Date of Birth: School: Student OEN/MIN: \_\_\_\_\_ Principal: \_\_\_\_\_ Current Grade/Special Class: School Year: Most Recent IPRC Date: \_\_\_\_\_ Date Annual Review Waived by Parent/Guardian: \_\_\_\_ Exceptionality: IPRC Placement Decision (check one) Regular class with indirect support Special education class with partial integration Regular class with resource assistance ☐ Special education class full-time Regular class with withdrawal assistance ASSESSMENT DATA List relevant educational, medical/health (hearing, vision, physical, neurological), psychological, speech/language, occupational, physiotherapy, and behavioural assessments. Information Source Summary of Results STUDENT'S STRENGTHS AND NEEDS Areas of Strength Areas of Need Health Support Services/Personal Support Required ☐ Yes (list below) ☐ No

# Develop the IEP

- Determine accommodations
- Determine modified expectations
- Plan alternate program areas
- Determine teaching strategies and assessment methods
- Required human resources
- Record evaluation and assessment information

# Implement the IEP

- Share the IEP with the student, parents, school staff and other professionals
- School staff put the IEP into practice
- Continual assessment to determine progress
- Make adjustments in goals and expectations
- Report to parents

# Review and Update the IEP

 Update the learning expectations at the beginning of each reporting period

Review the IEP regularly

A copy of the IEP is filed in the OSR

Transition planning

# IEP Development: Parent Involvement

- "Open communication and cooperation between home and school will also ensure that the two have similar expectations with respect to the students' special education program and services."
- "Principals are legally required to ensure that parents are consulted in the development of the IEP." The Individual Plan (IEP), A Resource Guide, 2004, pg. 13

# Policy/Program Memorandum #140

Ministry of Education, 2007

# Requirement I

- Program must be individualized
- Positive reinforcement must be utilized

Data must be collected and analyzed

 Transfer, or generalization of skills should be emphasized

#### **Special Education Program**

To be completed for each subject/course with modified expectations and/or each alternative program with alternative expectations

Student OEN / MIN:	Subject/Course/Alternative Program:	
Current Level of Achievement: Prerequisite course (if applicable)		Current Level of Achievement for Alternative Program:
Letter grade/Mark		
Curriculum grade level		

#### **Learning Expectations**

(List modified/alternative expectations outlining knowledge and/or skills to be assessed, by reporting period. Identify grade level, where appropriate.)

#### **Teaching Strategies**

(List only those that are particular to the student and specific to the learning expectations)

#### Assessment Methods

(Identify the assessment method to be used for each learning expectation)

#### **Individualized programming**

Observable and measurable Goals

Transfer or generalization

Reinforcement

Plan for transfer or generalization

Data collection Methods

Use of data collected

### **Transition Plans**

# Requirement 2

- School board staff must plan for the transition between various activities and settings involving students with an ASD
- Plan for every kind of transition
- Written transition plans for all students with an ASD
- Relevant ABA methods to be used to support transitions
- Collaboration with parents and community agencies

ansition Plan	OEN/I	MIN			
cific Goal(s) for Transition to Postsecondary Activities					
	Person(s)				
Actions Required	Responsible for Actions	Timelines			

## **Safety Plans**

# Crisis Management

- Crisis management is a reaction to an intense and temporary situation
- Board has a responsibility and is legislated through the OHSA to provide a safe environment for students and staff
- A very small number of students with special needs display behaviours that present an ongoing safety risk to self or others
- Personal Protective Equipment must be provided

# Crisis Management

• Goal: protection of all involved

 This is a quick fix which offers no long term educational benefit

Crisis management by itself is not a behaviour plan

## Final Thoughts

- Parent advocacy is an essential skill
- The IEP becomes the template for the student and the teacher program
- Principals are legally required to ensure that parents are consulted in the development of IEP's
- PPM #140 mandates that school board staff must plan for the transition between various activities and settings involving students with an ASD
